The Indestructible Kingdom

By

Dr. Wesley A. Swift

25th November 1962

(Tape Ministry)

Introduction: It is thrilling to greet you each month by way of the Tape Ministry. We are living in Bible times, foreseen and foretold from the foundations of the Universe. The enemies of our race think they have the forces of Christianity and the people of our race, God's chosen, headed for complete destruction by godless Communism. They do not realize that God is mocked, that His purpose, His plan will be carried out to the last crossing of the last 'T'. Christ said: 'I shall establish my church and the gates of hell shall not prevail against it.' Does that sound like defeat? The Bible says it is His will to give the Kingdom to His chosen, Israel. It also says that the nations shall be separated like the sheep and the goats, and Israel shall inherit the earth. There is no defeat in the mind of the Eternal Father, only how long until we awaken to our great heritage. And to return to our God. We are so fortunate to have these great tapes in the Library of the late Dr. Wesley A. Swift, and today's talk by Dr. Swift contains some events which were current (1962) as he brought this message, and they are still as current today as they were then. Thus we present, Dr. Swift speaking on the Indestructible Kingdom.

We turn in our thinking this afternoon to some of the areas of the Covenants and promises which are most important for us to remember and to understand. Of course with the realization of how God has put together the Universe, especially your portion of it, and your understanding of it. When we talk about the Kingdom of God as being an indestructible Kingdom, then we understand that it is an indestructible Kingdom because it is made up of indestructible people. It is made up of a people who are the possessors of Eternal Life, and the source of that life and the purposes of God as it relates to an Eternal people demonstrating in earth their power, demonstrating their achievement over the powers of darkness which is to ultimately be accomplished. This is something that is not going to be stopped, hindered, or even destroyed by the forces of evil,

although at times they seem to become so strong and so powerful that you almost wonder at them. One of the unique things about prophecy is that God knew all about these things which was to happen to your race before He revealed them to the prophets, and long before they transpired, or before even they appeared in your local newspaper. I think this had added significance as we see so many people who are disturbed, disappointed, or over wrought because of the catastrophe in the social impact of the forces of darkness, as they battle against God's Kingdom that they sometimes feel small compared to the great numbers of the enemy. One general in making his report yesterday said: we have depended upon technological strength, upon nuclear power, because we deal with the Soviet Union, and Red China, and there is no way we can meet them face to face in battle without superior weapons of nuclear power that they will not have but will understand. There is more to that statement than might seem to be apparent because there is a quality of spiritual vision and divine leadership that the enemy does not possess. We do not have nor, could ever attain the superiority from the standpoint of the normal patterns of warfare, but we do have and we do need, and we do have certain technological achievements. Then greater than that is the spiritual force and a divine power which is a defending force.

The Scriptures declare that the Eternal Yahweh is our refuge, and in this there is something that the enemy and the powers of darkness can never possess, gain, or utilize, because this is one factor which remains with you, 'God with us'. Why is this a factor that is a part of your race? It is because this is an indelible mark of an Eternal Covenant which has been absorbed and passed from generation to generation. And as you understand this it is ingrained in you, and you are on God's side, and your God is the God, and because of this you are a part of everything He is doing, and everything He has covenanted. There is nothing in God's purposes that are dependent upon the elements that human forces would depend upon without spirit. There is nothing that is just dependent upon the immediate whims of human nature and physical commitment. When we are talking with you about the Eternal Nature of God's Covenants with you, as outlined in the Book of Deuteronomy, it tells you that one of the things God states concerning you as a people which He had chosen, a people He calls a Holy people which He sat above all the people upon the

face of the earth, a people whom He tells that He loves you and tells you how He has made Covenants with you and they are to last for a thousand generations. Even this thousand is not limited because it is used here in the plural, though there is no limit to the thousands of generations that this covenant covers.

I want to point out to you that when God established His own people in the midst of the earth it was for an Eternal purpose. One of the things He tells the people of Israel is that as a household, as a people of the Lord has willed that they, as a people in their operation and in the rise of a Dynasty of His Kingdom, this is forever. There is no design in any of the promises and covenants that Yahweh has made that indicates He is going to take the Administration of the Kingdom out of your hands, or that He is going to surrender you to defeat, or that any nature of the design of the enemy would eliminate God's Kingdom.

I point out that within that declaration and that purpose, HE is establishing this throne in the midst of the earth, forever. We get a clue also of the force of power which is aligned with this purpose when we think of the great creative powers of the Most High God. When He said He established HIS Throne forever, this is true. 'Thy Throne, O Yahweh, is forever and ever; the sceptre of thy Kingdom is a right sceptre.' Psalm 9:45. Then we are told in Psalm 11:4., 'The Lords throne is in the heavens.' 'Heaven is My Throne, and the earth is my footstool.' But the word here is significantly in one of the celestial planes, and the spiritual areas of power, and the physical areas of power, the areas of manifestation. We point out to you the eternal transfer of the throne from heaven to earth just as He taught you to pray: 'Thy kingdom come, thy will be done, In earth as it is in Heaven.' Matthew 6:10. That the Kingdom of God exists in all dimensions and in all planes of God's creation. When we understand that, the sovereign of the Universe extends His creative power, and His controlling power, from one end of the Universe to the other, in the tremendous areas of the sidereal immensity of God's creation, then we understand that God's creation is the extended power of the Sovereign who said: 'This is all mine', He is your Father, you are His children, He has expressed His intentions within this Book of sharing with you the seat of administration over all this Universe. He developed

you for this purpose. He said: I love you, and I want you to know that My purpose and my plan with you extends throughout all the ages of Eternity.' Now it is one thing to have a throne in the heavens but there came a time when the Eternal decided to have a throne in the earth as well. I point out to you that this is especially true with David, because in the 89th Psalm we read these words concerning this throne in the earth and His servant David; Verse 28. 'My mercy will I keep for him forever, and my covenant shall stand fast with him.' (vs:34) My covenant will I not break, nor alter the thing gone out of my mouth once have I sworn by my holiness that I will not lie unto David. (vs:36) His seed shall endure forever, and his throne as the sun before me. (vs:37) It shall be established forever as the moon, and as a faithful witness in the heavens.'

How long was the throne of David to last? How long was this covenant with your race, concerning the establishment of a seed line, and a household? For as long as we see the strength of the sun and the abiding presence of the moon, as long as the solar system stays in balance, as long as the Universe operates under the great mentoid Sovereignty of Divine Will, which set the orbits from the large sidereal systems down to the smallest atom, that is how long the throne of God will exist in the earth. Again we turn to the words of David at the time God makes this covenant, we note this is the closing days of life for David and he makes this testimony, Samuel 23. 'The spirit of Yahweh spake by me, the Rock of Israel spake. He that ruleth over men must be just, ruling in the fear of Yahweh. he shall be as the light of the morning, as the sun that riseth in the morning (David is talking about his house and this is the declaration) Although my house disobey, even though they do not measure up to divine standards, even if my house fall, yet He hath made with me an Everlasting Covenant, ordered in all things and are, for this is my salvation.'

This is an Eternal Covenant, an absolutely ordered covenant, even in the face of human discrepancy. Every once in a while we have someone who tries to tell us that because of human discrepancy, the Kingdom of God is going to fall. And if you look out over this great nation of God's Kingdom and see the leadership of this nation you might think this nation is doomed, but even though you have leadership which would doom your

nation, without the staying of God's hand, still God will remove that leadership and carry forward the Destiny of the nations of His Kingdom, and you of His household. In fact there are some of these people in such a mental maze of darkness because of the forces of evil round about them, and one would say that they are without recovery, but let me say; .that everyone of the Adamic race, the household of God is still within the scope of God's ability to reach him. Some of them will be taken out of the human areas as they become structured to God's plan but they will be reached never the less until their consciousness and their spirit will come into synchronization with the purposes of God, and they will know the Great Creative Power of an undefeatable, Eternal God. We point out to you that the words of prophecy are sure words. We turn over to some of the situations we pass through and whereas some of them are dangerous crisis conditions, still the word of God is, SURE. The mysterious forces under the power of evil is still trying to organize the whole world for their own design. They still think that their world government is going to rule over all people on the face of the earth. So in the days of Daniel the prophet, he said: 'Thou O Babylon art this head of Gold.' Their design to control all the world and its economy is symbolized again in the Book of Revelations as God speaks to John and unveils the Omniscience of God's knowledge and wisdom concerning this matter. But in no area is there a concept that victory will not be the accomplishment of the Kingdom of God. You will note that no man will be able to buy or sell in all the world order unless he carries their card, has their permission, has their seal. But I want to point out to you something you find on the front of today's newspaper, it says: The Senate and House Committees have been in session on special house duty, behind them are advisors and they are the International advisors for the field of world monetary policies. In the field of International monetary funds, under Herb Jacobson, one of the most powerful Jews in the world of economy, and behind this whole strategy is the House of Rothschilds and the House of Morganthaul, Kuhn Loeb and Co., and all the financiers behind the C.F.R. They come up with this as a solution: In order to balance the credits and exchange, in order to extricate America out of deep economic problems, from having given away so many of its dollars backed by silver and actually by Gold, that it has run out of the gold in the treasury as far as being able to reach all its commitments, and solve all its problems. Mystery Babylon says: we have

a solution. 'We advise that all the nations of the world gather up all their gold and all their silver and put it under one treasury, the World Monetary System, and put it all in one basket, and then we will issue out of that system, gold and silver certificates to these nations complying. 'Babylon thou art this head of gold.'

Under the U.N., under the hands of a few Jews, under the hands of the world conspirators, they want all the gold the U.S. has at Fort Knox and at Denver, and all the gold and silver coins, and they want all delivered to the World International Monetary Fund. Then they would be in a position they say: to balance the credits, set the standards, and the standards of gold will rise and fall according to demands upon it and no nation will say: our dollar is worth so much today. They will take the economy of all the nations to this one central bank of gold, and thus it will then balance out the credits. This they think will be the mightiest weapon they have ever had, because if they see some are getting out of control then they will just remove their credit from this area of the world, until that area bows to their demands. They won't be able to import or export, to buy or sell, thus the entire movement in and out of the nations will be controlled by the head of gold residing in the U.N. Now they want the Senate and House of the U.S. Congress to listen to these proposals and study them as a solution to the whole world's monetary problems.

That is not a solution that is a big noose. I wouldn't be surprised if the forces in our country in their moves, to the left, would talk about the surrender, of the gold and silver into the hands of the world monetary fund, Mystery Babylon, head of gold, because this is prophecy in fulfillment. But let me tell you something. All the gold and silver they don't have will be a most valuable possession. This is what God is talking about when He says: Come out of her O my people, lest ye be caught in her judgment, for America is caught in this trap. If they put over this swindle and it is very possible they will, because the advisors to this administration will urge this. If they put the gold in the I.M.F., then I am going to prophecy to you that America of necessity, will come up with something different than they anticipated. We will free ourselves from Babylon's head of gold and live on currency backed by production.

My friends, this just means that we are just one step closer to the day when you are going to be in power. Just one step closer to the day when all the gold and silver of the world will be under your administration. It won't be too important however for you may use it to pave some of the streets that you are wearing out, but then you would have to figure out a way to keep people from slipping on its slick surface. So it isn't such an asset as you might think.

I point out to you that the indestructible Kingdom exists because its origin is synthesized out of the sphere of patterns of divine energy. In all of the areas of its physical manifestations, and the people who comprise it have their life, their vision, their creativeness, in the wavelength of His thought and His mind. You know the physicist's support this more and more in their discoveries, and the astronomers are also aware of this, that the entire Universe is made of things of which it does not appear. The Apostle Paul said: that Eternal things are not visible, but these energies grouped by the sovereignties of divine mind, and by the great energies out of the spirit, are a great Universe. An electronic and a light Universe, and that is all you can say of everything solid and everything material. These protons and electrons, and units of electricity, only the strength of the mentoid which holds and binds these elements together making solidity out of these electronic substances until their molecular masses can be touched and handled.

So we are faced with the fact that as God synthesis and holds the solar together, He holds the atoms together, and keeps their electrons moving around the nuclei. So He says, as also the sun and moon, I am the nucleus of this, I am the spirit of this wall of power, I hold together everything, even this throne which David His servant sat on. When you recognize your eternal celestial existence, when you realize that you were with the Father before the world was framed, that He wrote your names in the family record, the Lambs Book of Life, before the foundations of the world, that there is nothing He has not added to your environment to bring certain things to pass, that He did not know about. Then you rest secure in the sovereignty of the Mind of your Father and as you adjust your own consciousness to His purposes, the great spiritual flow of force, and the essence of vision and ideas necessary for accomplishment moves

through you. There isn't any doubt today as you study the world that the great creativeness and vision lives with your race. The great German Anthropologists I.B. Lissner has just brought another volume off the press, and within this book you find the antiquity of yesterday. You find the movement of Empires and races and their existences long before the white man walked the earth. You find that history and the sudden synthesis of the white man into the world picture, but there is something quite obvious about these patterns which is that the entirety of liberty and vital force of power and truth started to move with the coming of the Adamic race. This is still true today, you look out over the world today and you see the impact of the Adamic race as it moved into their environments. More than that you will notice the sudden stimuli following the Resurrection of The Christ, and the coming of the church, and then the timing of the last 1 1/2 centuries as the most tremendous spurt of advancement in human history. We point out to you that in these courses there are still factors that must be governing factors. The Eternal nature of the laws of the spirit and of the Household of God, the fact that you as a people are the Household of god, and your greatness comes from the synchronizing of your searching and seeking the Mind of God, and out of that comes the whole area of vision.

For instance the other day an Internationalist was trying to give us a whole pattern, a strange and unacceptable pattern, for he had just returned from India. He said that we must not let civilization wipe out the background of pageantry of which India is made up of. he said it would be a terrible shame if in the struggles in the world today that these picturesque Temples, and strange customs should be destroyed and not stand as a mark of those people. That all cultures are essential and for the children of the future generations the Temples of Brahma, Vishnu, ali, and Siva must not be wiped out of the scenes of the history of India. But I tell you that the reason India needs your help today is because of this strange pattern of Brahma, Vishnu, Siva and Kali. And all the pagan gods with their superstitions that exist in their society. You can't stop change and the Kingdom of God is progress. Before this is consummated there isn't going to be any pagan temples, there isn't going to be a pagan priest for every 5 people in India that has to be supported. This is true, every 5 people in India have to support 1 pagan priest or beggar associated with

their pagan religion and superstitions. Their corruption and their immorality, their problems are a by-product of their worship of this idolatrous system of pagan superstition, and then there will always be someone who says; this is so colourful and picturesque so we must keep it. Well if the devil is colourful enough and handsome enough and if he is picturesque, then we must keep everything Satanic in operation, just because it is good to look at?? According to that way of thinking some would embrace, Dantes Inferno, and say that is the most unusual volume on perdition, so lets keep it.

I want you to know that there are a lot of strange things, a lot of peculiar things, and a lot of things from the standpoint of human interest that might be curious of human history, but if they are errors and superstition and madness, the emancipation of people from those areas of darkness is the most important area of human conduct. Never will a people rise higher than their concepts of deity, nor the activating force that effects their society. This is true from one part of the earth to the other. Though there has been 73,000 years of Negro history traceable by their artefacts, and their buried bones, still the evidence is that there was no Negro civilization in Africa. There has never been a Negro civilization which had any impact upon the world, or contributed anything to it. The only traces in Africa of civilization that you find is in Egyptian civilization along the River Nile, and then that civilization was primitive until the impact of the white man came with his expanded ideas of architecture and theology and even the art of embalming their mummies was brought by the white man, and it didn't have any effect upon them until the doctrine of the white man and the resurrection made even the handling of their dead so important to them. This can be found in the writings of Horus, and Seth and others through the religious systems which existed in Asia and Egypt. We point out to you that the civilizing force in Africa has been the children of the Eternal Kingdom. It has been by vision and energy and with the application to develop and improve and to create that we see the changes which hit these areas of earth.

I want you to know that when we talk about Eternal substances that over in the Book of Isaiah 54., we have the Eternal Covenant of God which looks upon your race as His wife. He looks upon your race as the source

by which His children are propagated into the earth. He says: 'I am married unto you, speaking to this race of People, Isaiah 54:5. 'Thy maker is thine Husband, the Lord of Hosts is His name. He is thy Redeemer, the Holy one of Israel; He is Yahweh, thy El, of the whole earth shall He be called.' He is the one sovereign supreme God in the semantics of our race, and what did He say? 'I am Yahweh thy maker, the Holy one of Israel.' We have lots of types and symbols and a lot of people are all mixed up as they consider them. The other day I listened to one of the most fantastic expressions of Biblical interpretations, but I find that a lot of people get into these different ruts. They had God divided up into 3 different parts, the Father, the old man, God the son, the young man, and God the Holy Ghost, the spirit. And they had God the Father, the old man, married to the Israel race, and Christ the son, the young man, espoused to the Church and then they had the Holy Spirit as the force for consummating all union, and this then was supposed to be theology. Then I picked up the religious page of the newspaper which carries the announcements of things which are to come to pass, and one clergyman announced that he would speak on the subject. 'This time, the Father returns instead of Christ.' This time the Father is to return for certain work before the Son could come. This is as fallacious an idea as can come into men's minds. There is only ONE Eternal God, this ONE is a great majestic personage; 'The Lord thy maker, is thy husband, He is thy redeemer, the Holy one of Israel.' And He says: 'I am married to Israel.'

When people wake up to this they will discover that the spiritual centre of God's Kingdom, the church, is also Israel, because the people who are the believers are the seed. They will discover that the nations of His race are a part of this as He builds His Kingdom, and even the throne is a part of Israel; His Kingdom on earth. I ran into a Clergyman and he wanted to argue, so we got into a discussion. He said: Dr. Swift I wish you would come over to my church and we would save you from perdition. I said: well I am interested in perdition also, but I don't have the time to come over to your church, but why do you make a statement like that? He replied: what we preach is spiritual, while what you preach is not spiritual. So I said: what is not spiritual about my preaching? He said: You are introducing as fact that the church should do something about the political situation, the social situation. That the church should step in and try

to correct the degenerate moral and ethical status in our society, and these factors are not spiritual. You are talking about nations and people and you are moving the objectives of man from heaven to earth, and this is not spiritual, it is natural. I said: Alright, then what do you preach that you want me to come and hear? He said: Well first you have to cleanse these people up so they will be spiritual, so that a spiritual message tells them what to do and what not to do. I said: Well are you tell them what to do in heaven or here on earth? He said: Oh, here on earth. I said: Well, what do you then tell them? He said: When I get through with the message I give them an altar call and give them a chance. I said: that is noteworthy, how many people have you brought in since you came to this church? He said: eleven. I said: Have you been given them this chance all this time? He said: that is right. I said: well, I still want to know what you preach about that is spiritual? He said: I tell them that they have to quit this lying, stealing, adultery, and being intemperate etc. I said: well, I don't want to come to your church. He said: why not? I said: well, I don't want to mix with people like that. If that is spirituality and you have to go through all the devils lying to tell them what not do then you are in a bad spot. And you are apparently going through this process every time so that you can given them a chance. I don't want to come over there because we who believe in the Kingdom don't live that way, we in my congregation talk about the program of the Kingdom, and we aren't interested in those things and in the chance. He said: well to me, what we preach is spiritual. I said: well, it just doesn't sound all that spiritual to me.

If he thinks that in the catastrophes and the climactic factors involved that there are certain numbers of casualties as God loses a certain number of souls and spirits, or that God has a peculiar quirk in His nature so that He has to exact a certain amount of torture throughout all times in order to satisfy the error men make in earth, then he will have to go ahead and think this way, but that concept of theology, to me, is very primitive. If the church has still an unanswered area of future destiny, if they do not see that the sovereignty of God is absolute, if they do not see Eternal Life as Eternal, if they do not see the creative purposes of God that will use any force necessary to thrust into the environment for any condition necessary, then they have a god who is partly defeated, and who doesn't know about tomorrow.

My revelation of truth, which God unveils through His Word, can show with clarity to each and everyone who will study these facts, that God Almighty has pointed out what is coming to pass on earth. He has pointed out these facts and the points that are important, such as the monetary, and political scramble. When God does this and it comes to pass then you can be sure that every detail was known to Him from the beginning. He said: I have known you, I wrote your name in the Lamb's Book of Life, before the foundation of the world. I want you to know that destiny and purpose of God has not changed. This is an indestructible Kingdom because it has Eternal Life. It is an indestructible Kingdom because it is the Eternal Yahweh and thus the throne is also indestructible, in heaven and in earth. He has attributed these Eternal values to His people in the earth, and we have never had a period in which there is as much concentrated, vibratory energy of the darkness attacking the Kingdom. There has never been a period when there has been as much spiritual force of Divine vibrations of light and truth as moves upon the children of the Kingdom, for victory. I am going to tell you that you are coming forth in triumph and in Light. Isaiah 60:1; 'Arise, and shine for thy light has come, and the glory of Yahweh has risen upon thee.'

Let someone else take those superstitions and theologies and gods with their hells and torture, and even the idea that the devil is going to torture people so as to satisfy God that he is fighting all those things as for me I will take the promise of the Kingdom. All those things are fantastic, the devil torturing men by the miseries he creates, by the evils, by the distrust he brings, by the wars, the darkness men live in, the superstitions he creates, the suppressed fears and etc.

This Kingdom is the way of life and emancipation, the truth, this is Eternal Life. If you want to know the secret of it you must know the only Eternal true Yahweh. You must know His own embodied manifestation, you must know that you are the children of Yahweh, that you are His Kinsmen, and He has given you, Eternal Life. You are indestructible for the race of which you are a part of will never be destroyed. The Celestial nature is absolutely indestructible, you can't burn it with fire even. The soul consciousness within the purposes of God is completely redeemable because it is in the areas of consciousness in which you think. The

physical body may disintegrate, but it can be reassembled by the same spiritual power that holds together every atom and causes the Universe to remain in orbit. That is one of the secrets of resurrection, it doesn't make any difference how much disintegration, it doesn't make any difference how much change chemically or otherwise the atom can be reassembled. And how of the essence of the Universe, synthesized by the spirit, bone can come to bone, and resurrection can be assured. There is a greater power that will forestall the processes of death. It happened to Enoch, to Moses, to Elijah, and to John, and a great number of others which you do not know about. We established for a Clergyman the other day that Moses never died.

Now some will say that their Bible says Moses died, but Moses wrote the first five Books of the Bible and he wrote the Book of Deuteronomy, so I am sure he wrote the chapter at the end about how he died and was buried???? No, in the first place Moses never died, because on the Mount of Transfiguration they saw the glory which enveloped The Christ, and then Moses and Elias stepped out of the cloud and started to talk with Jesus. And if Moses wasn't there and where Elias was, then he couldn't have been on the Mount of Transfiguration. If Moses was dead he would have been in the Netherworld waiting for the coming of the Messiah to set him free, because those captives were not brought out of there until the death, then the resurrection of the Messiah, and there on the Mountain, this was before the crucifixion. Remember over in the Book of Jude how the devil was fighting with Michael over the body of Moses, and he was contending with Michael, until Michael started to tell the devil off and coined a few new names for him but God said: Just a moment Michael, you can't even cuss out the devil. After all, Lucifer is still an Archangel and he has lots of power, besides we will take care of the devil in due time. So Michael be quiet. But they were arguing over the body of Moses. The devil who thought he had by his fall, and by his power over death, a right to the body of Moses, and he couldn't find his consciousness in prison, nor his body so he wouldn't be quiet and he wanted to know where the body of Moses was. The fact that the devil couldn't find him proves that Moses didn't die. No, Moses did not die and neither did Enoch, nor Elijah, nor John. Jesus said to Peter: what is it to you if John tarry here until I come? You carry out the job that you were given to do

and I will see about John. Well, John was seen in Asia, John was seen in India, in Alexandria, Egypt and Thomas went all the way over to Persia with his Gospel, and John was there to meet him. And of course years and years later, factual of your race had visitations from John the Apostle, and this is a matter of history. Way up to the days of Genghis Khan who records in the history of the Empire, that this man John was moving around Asia, even when he, Genghis Khan was out to conquer. The story that this man John, the Apostle, was there was believed by whole communities. I believe it also, and I think he is still around. One of these days you are going to discover that the ability to sustain life through all conditions has also been given evident examples right here in earth.

One of these days you are going to see the greatest illumination of all times, descending upon God's people, and you will be set free from the fears of darkness, and the process of death. So therefore let us occupy the earth and lets not try to transfer God's instructions as something not spiritual. Whenever you try to build God's Kingdom on God's plan and work for the overthrow of darkness, and the extension of His throne from one end of the earth to the other, before which every knee shall bow, that is about as spiritual a conclusion to an earthly existence as you could bring to pass.

When God Himself visited the earth He ate food, He conversed with people, He went fishing in a boat. He talked to people on the mountain and He was real, just as you are real. When people wake up to the fact that they are real and they were put here in earth to do a real job, then they are going to do something here that heaven sent them to do. Don't worry about heaven, for it has been getting along real fine since you have been here. Just finish the prayer: 'Thy Kingdom come, thy Will be done, in earth as it is in heaven.'

(End of this message)

THE NEW CHRISTIAN CRUSADE CHURCH

CALLING THE PEOPLE OF BRITAIN

At last the bible makes sense!

At last we know its meaning.

Its the book of the RACE
